TRANSFERS:

Transportation and Transfer is mainly based on the use of cars and or buses / taxis. This is the most practical way to travel from airports to various destinations.

The trains are connected with the various main arrival points, but for our locality it will not be practical at all to take the trains. So it was thought to have this unique solution, (except if there will be those who will come with their own cars / transport).

BUS:

NB: For this service you will have to pay the fee that will cost individually, to your shuttle service agency for the transfers from the Airport to the Village and back to the Airport. It will be communicated to you much earlier and on time, by sending you a Booking List which must be filled in with name and surname and times of your arrival and departure flight, and then book the Coach / Bus / Shuttle for your groups. This way you will be able to keep better control for an appropriate service to you. The rate that will be requested by the transport agency must be paid personally to the driver of the coach / bus / shuttle that will be assigned to the group that has booked.

For those who choose to travel and organize themselves to get to the Torre del Faro Village from the airport, they can do so easily. The organizer is exempt from any responsibility for arriving and departing transfers for those who do it on their own.

Important Notes:

- A. Some Rules and Regulations will be sent out to each Head of country with regard to Venue and other aspects of the weeks attendance Being Seminar and Championship, out of which it is important to sign and accept as in having read.
- B. A Booking Form/s will be sent out to all Head of country, in order to be filled in and sent back to the organizer Costarelli Ignazio being hands on the location and all services.
